Course Activities

Aligned to **Electrostatic Discharge (ESD) Control for Lab and Factory Engineers and Managers** (TGS-2024051412) · v3.1.

Each activity is self-contained. Open the numbered folder and start with `README.md`.

- Activity 1: Static Hazard Hunt at NovaSense Incoming Inspection — K1 · A1
- Activity 2: Medical Microchip Failure Triage: ESD, EOS or Process Defect? — K1 · A1
- Activity 3: Design and Commission an EPA for Orion Optics — K3 · K4 · A1
- Activity 4: Select Controls for the Aster Robotics Handling Cell — K3 · K4 · A1
- Activity 5: Execute a Compliance Verification Round — K2 · K3 · A2
- Activity 6: Standards-Based EPA Audit at Helix Assembly — K2 · A2 · A3
- Activity 7: Investigate the PulseMed ESD Incident — K4 · A2 · A3
- Activity 8: Management Capstone: Build the Apex ESD Control Plan — K1–K4 · A1–A3
